

# New imaging possibilities with x-rays and neutrons

*New Opportunities in Imaging with X-rays and Neutrons -*  
Working Group to highlight the new imaging possibilities  
with x-rays and neutrons at sources such as MAXIV and ESS.

In particular this WG will bring together the method  
developers to advance new approaches and will also  
highlight the potential of the methods to (new) users with  
the objective of developing the user community.

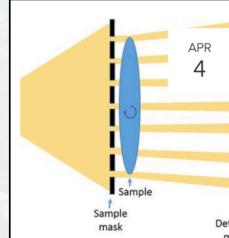

## **X-ray Fluorescence imaging - how to plan and execute the perfect experiment**

Thursday, February 15, 2018

09:00 – 17:00

AF Borgen (map)

Want to pinpoint chemical species in your samples? New or relatively  
new to the use of synchrotrons? We invite you to a one-day

## **LINXS Event: Inverse problems in X-ray phase retrieval and tomography**

Thursday, April 4, 2019

09:00 – 17:00

Create an overview of activities in the region related to

- Coherent Diffractive Imaging (autumn 2019)
- 2<sup>nd</sup> Fluorescence imaging workshop (late 2019 / early 2020)
- STXM imaging workshop (early 2020)
