

Session Program

25-26 May 2021

**LINXS Event - Membrane Protein workshop:
Structural Resolution of Membrane Proteins:
From Expression to Sample Preparation**

Session 2 - Chair: Susanna Horsefield

Tuesday 25 May

14:00

Session 2 - Chair: Susanna Horsefield

Session | **Location:** Digital meeting on Zoom

14:00–14:40

Keynote talk - An yeast GFP-based platform for functional and structures investigation of SLC transporters

Speaker

David Drew

14:40–15:00

Contr. talk - Study of anti-cancer effects of TTA-A2 and paclitaxel due to antagonistic interactions with T-type calcium channels

Speaker

Vikram Dalal

15:00–15:20

Contr. talk - Production of insect odorant receptors in yeast for structural studies

Speaker

Cassie Sims

15:20
