

Session Program

13-15 Jun 2022

**LINXS Partner event - Lipid Bilayers at ESS-
BESS in Lund, 13-15 June 2022**

Session 8 - Application of membranes

Wednesday 15 June

10:45

Session 8 - Application of membranes

Session | Location: Scandic Star Hotel, Lund

10:45-11:30

Keynote talk 8: Susan Daniel - Regulation of the Coronavirus Fusion Peptide Interaction with the Host Membrane and its Impact on Viral Infectivity

Speaker

Susan Daniel

11:30-11:50

Contributed talk 22: Magali Deleu - Plant plasma membrane models to study the molecular mechanism underlining rhamnolipid sensing by plant cells

Speaker

Magali Deleu

11:50-12:10

Contributed talk 23: Ben Humphreys - Can neutron reflectometry monitor the kinetics of thin film lipolysis?

Speaker

Ben Humphreys

12:10-12:30

Contributed talk 24: Aurelien Furlan - Development of asymmetric liposomes to mimic plant plasma membrane using cyclodextrins as lipid carriers - Influence of phospholipid fatty acid chains

Speaker

Aurelien Furlan

12:30
